## BB-4850PDR-HS

## Introduction

Model BB-4850PDR-HS is a high speed, optically isolated RS-422/485 repeater that supports data rates up to 1.5 Mbps , making it suitable for use in fieldbus systems such as Profibus.

Isolation - Model BB-4850PDR-HS provides 2 kV digital isolation with 8 kV air ESD protection and 600 W transient voltage suppression on the data lines.

Range Extension - Model BB-4850PDR-HS can be used to extend the range of a network up to 1.2 km ( 4000 ft ), depending on data rates, and to add additional nodes. 2-wire RS-485, 4-wire RS-485 and RS-422 are supported. Data signals and the power inputs connect to built-in terminal blocks.

Enclosure - The enclosure has a DIN rail mount enclosure that is designed to easily fit on standard 35 mm DIN rail.

Power - The repeater operates on externally sourced 10 to 30 Vdc power (power supply is required, not included, sold separately).
