EKI-2706G-1GFPI-BE

4GE PoE+1GE+1G SFP Unmanaged **Industrial Switch**

Features

- Supports 10/100/1000Mbps auto negotiation
- Supports jumbo frame transmission up to 9k bytes
- DIN-rail with IP30 metal mechanism
- Redundant 24 ~ 48 V_{DC} power input
- Provides broadcast storm protection
- 4 x IEEE 802.3 af/at PoE /PoE+ ports & 1 x Gigabit Copper + 1 Gigabit SFP ports

Introduction

The EKI-2706 series supports 24 ~ 48V_{DC} redundant power input and is secured with a double protection mechanism: power polarity reverse protection and an overload current fuse. The EKI-2706 series supports up to 4-port IEEE 802.3 af/at PoE /PoE+ ports. Each port of EKI-2706 has two LED indicators to show the link status transmission speed, and collision status. It also provides a relay output for an event alarm. In the event of a power failure, the built-in LED will activate the alarm to notify, administrators. Engineers can simply verify the hardware status by checking the LED to make troubleshooting easily and fast. EKI-2706 comes with a compact metal housing rated at IP30 to protect against dusty industrial environments.
