MIO-2360

Intel® Pentium N4200/Celeron N3350/ Atom™ E3900 series Pico-ITX SBC

Features

- Intel® Pentium N4200/Celeron N3350/Atom™ E3900 series
- DDR3L 1866MHz support up to 8BG
- Dual display: 24-bit LVDS+VGA/HDMI
- mSATA & mPCle for expansion and MIOe conn.
- **USB3.0**, SATA3.0, 2 x RS-232/422/485
- WISE-PaaS/RMM and Embedded Software APIs

Software APIs:

Reliable Embedded BIOS Solutions

Custom BIOS services with long-term support

Advantech's high-quality embedded BIOS solutions deliver rapid execution and feature expert BIOS team support. These solutions feature multi-functional designs that ensure security and enable power/boot management. Advantech further provides 10+ years of BIOS version management, internal management, and longevity support for both hardware and BIOS — enhancing application efficiency, diversifying functionality, and optimizing performance.

Embedded BIOS Solution Advantages

Sufficient Sources

- Strong partnership with BIOS vendors
- 50+ engineers with extensive industrial BIOS experience

Diverse BIOS Functions

- · Multi-layer security
- 3 second fast boot
- Power management
- · BIOS suite utility

Long-Term Maintenance Services

- Platform longevity support
- 10-year BIOS version control
- BIOS remote backup

Value-Added Customization Process

Embedded Linux Support and Design-in Services

Hardware Certified Ubuntu and Yocto with Eco Partner Services

Linux is the most popular embedded OS for transportation, outdoor services, factory automation, and mission critical applications. Its open source and kernel reliability features ease security updates, and make it particularly adaptable to new Al and Edge computing technology. Advantech has cooperated with Canonical and other software partners to provide hardware certified Ubuntu image and Yocto BSP as Linux offerings. The Advantech, Embedded Linux, and Android Alliance (ELAA) delivers local software services and

Features

Certified OS and BSP

- · Platform compatibility tests
- Preloaded functional driver and software stacks

Licensed Services

- · License authorized Canonical delivers 10-years of bug fixes and security updates
- In-house bundled service

Numerous Al and Edge Resources

- Containerized technology for service provision and deployment
- · Al resources from Caffe. TensorFlow, and mxnet

Local Partner Alliance

Embedded Linux and Android Alliance (ELAA)

Edge Al Suite

Al development for diverse application at the Edge

Increasing demand for AI inference/analytic capabilities at the Edge make AI training models, software development environments, and hardware configuration key factors in successful solution deployment. Advantech's Edge AI Suite helps users build AI demo devices quickly and choose optimal hardware solutions easily.

5x Performance Boost

- Integrated Intel[®]
 OpenVINO™
 technology
- Boost Al using Advantech hardware

All-in-one Installation

- Build AI
 environment in
 under 5 minutes
- Ready-to-use configuration

One Click Al Experience

- User friendly configuration guidance
- One-click
 Benchmark
 acquisition

Plug-and-play Environment

- Easy access to 100+ Al inference extensions
- Software development package available

Discover Cost-effective Hardware

- Diverse CPU/RAM options
- Find hardware solutions for Al development

WISE-DeviceOn

Massive IoT Device Management Utility

IoT deployment and management typically involves numerous disparate devices installed on multiple sites. These devices require effective monitoring, managing, and tracking. Advantech's easy-to-use WISE-DeviceOn interface enables users to remotely monitor device health, troubleshoot problems, and send software/firmware updates over-the-air (OTA). In sum, DeviceOn empowers quick real-time responsiveness to emerging problems.

Features

Comprehensive Management

- Devices status
- · Peripherals/firmware
- Open for extension

Remote Access

- · Real-time monitoring
- · Remote controls
- Troubleshooting

Efficient Operations

- · Zero-touch on-boarding
- OTA updates
- · Batch control
