NPort 6650-16-HV-T	V1.1.0	V1.2.0
NPort 6650-32-HV-T	V1.1.0	V1.2.0

Change Description:

The Flash of NPort 6600 Series has been phased out per vendor's roadmap planning. It will be replaced with a new component by another certified supplier, performing the same functions. The Flash change requires a firmware upgrade which is still backward compatible and will not affect device behavior.

- New version hardware cannot work with the old version firmware, if you had to use the fixed firmware please contact your regional sales contact.
- Old version hardware can directly upgrade to the new version firmware if you would like to try new functions. The existing functions will all keep the same.

Delivery Schedule:

The NPort 6600 Series will be available to order from June 1, 2019, and will also be ready for shipment on June 1, 2019

Note: For questions, contact the Norman Wang (norman.wang@moxa.com) or your regional sales contact.
