

Product Change Notification – PCN #PCN000669

1st November 2019

Dear Valued Customer:

The purpose of this letter is to inform you that Moxa is planning to implement a change to certain products. Please review the detailed information given below to determine how these changes will affect your products and/or processes. If you have any questions regarding these changes, please contact the person listed below.

Subject:

UC-8112A-ME-T Series Firmware version upgrade from V1.0.0 to V1.3.0.

Service Level: Basic

Effective Date: November 29th, 2019

Model Names/ Current Version/ New Version:

Model Name	Current Version	New Version
UC-8112A-ME-T-LX	<u>V1.0.0</u>	<u>V1.3.0</u>
UC-8112A-ME-T-LX-US	<u>V1.0.0</u>	<u>V1.3.0</u>
UC-8112A-ME-T-LX-EU	<u>V1.0.0</u>	<u>V1.3.0</u>
UC-8112A-ME-T-LX-AP	<u>V1.0.0</u>	<u>V1.3.0</u>

Change Description:

Upgrades Cellular Management utility from v1.44.1 to v2.0.3 to align the behaviors while using MC7354/MC7304 and TOBY-L2 series, also includes following fixings:

1. Change default mode from router mode to bridge mode so that user can still use NAT to access the end devices that UC-8112A is connected with, while using public IP SIM card.
2. Change default mode from RNDIS mode to ECM mode because throughput will be limited while RNDIS mode is enabled under Linux OS.
3. Align signal strength output parameters between MC7354/MC7304 and TOBY-L2 series.
4. Fix some interoperation issues between ThingsPro and Cellular Management
5. Fix some Verizon compatibility issues.

Moxa will **NOT** change the revision of models on model label for this Firmware change and will provide full firmware image and patch package (from firmware v1.0.0 to v1.3.0) on below webpage by November 29th,

2019.
