

Product Change Notification

**Lightning Arrestor and Mounting Kit Updates
New Pricing Effective Immediately**

**MultiTech Conduit® IP67 Base Stations
MTCDTIP and MTCDTIP2 Models**

Date: July 27, 2022

I. Overview

The lightning arrestor and mounting kit accessories listed in this announcement have been updated to include a ground strap adapter kit, which was previously not available.

More information on these accessories can be found in the Accessories Ordering Guide available at <https://www.multitech.com/products/accessories>.

II. Ordering Part Numbers

Order Part Number	Updated Catalog Description	Region

III. Warranty and Support

MultiTech provides a 90-day warranty for the accessories listed in this announcement.

IV. Suggested Action Plan

To help facilitate the use of these accessories, we recommend the following actions be taken:

- Forward this notification to others within your organization who are actively involved in the sale or support of the Conduit IP67 Base Stations, associated accessories and LoRa design projects.
- Ensure that the updated pricing and catalog description is loaded in your pricing system.
- Place initial stocking orders.

V. Additional Information

Proper grounding of the Conduit IP67 Base Station is required to ensure safety. MTCDTIP and MTCDTIP2 devices, the lightning arrestor(s), and mounting kit accessories all include a ground lug, and the ground lug must be connected to an earth ground using a customer-supplied ground wire suitable for outdoor locations and a minimum wire gauge of 14AWG or larger. Contact a licensed electrician for assistance in grounding MTCDTIP and MTCDTIP2 installations.

If you have any questions or require additional information on this Notification, please contact your MultiTech sales representative.
