

Product Discontinuance Notification—PDN# 0000381785

Revision 2, October 31, 2023

November 08, 2022

Dear Valued Customer,

We would like to inform you that Moxa is going to discontinue the NPort W2150A Series and NPort W2250A Series because a key component has reached its end-of-life. The last-buy process effectively began Dec 01, 2022.

If you need any of these discontinued products for an existing project, please contact your Moxa sales representative to place orders before Nov 30, 2024, which was extended from May 31, 2023, that provides more time in support of a better production transition. The number of the last-buy orders is limited; production may stop at any time. Please order NPort W2150A-W4/NPort W2250A-W4 Series for your new projects as soon as possible.

Please review the details below to determine how these discontinuances will affect your products and/or operations.

Which products will be discontinued?

The following products will be discontinued. Also, see the models recommended to replace the soon to-be-discontinued models, as well as when the replacement models will be available for order.

Discontinued	Recommended Replacement	Available for Order	Shipment Date
NPort W2150A Series	NPort W2150A-W4 Series	Jan 2023	Jan 2023
NPort W2250A Series	NPort W2250A-W4 Series	Jan 2023	Jan 2023

Applicable differences in specifications

In this table, we list the difference in specifications between the discontinued products and the recommended replacement products.

The NPort W2x50A-W4 Series is identical in dimensions and similar in appearance, with a minor modification regarding the LED location. For detailed specification, please find the datasheet on Moxa’s website.
