Product Change Notification—PCN# PCN000991**June 24, 2024**

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to the ICF-1180I-S-ST and ICF-1280I-S-ST Series Industrial PROFIBUS-to-single-mode fiber converters. These changes will be implemented June 2024. Please review the details below to determine how these changes will affect your products and/or operations.

What will change?

The following changes will be implemented in the new versions:

1. Component Change

Changed Items	Reason of Changes	Affected Models
Fiber Module	The original fiber components end of life.	ICF-1180I-S-ST ICF-1180I-S-ST-T ICF-1280I-S-ST ICF-1280I-S-ST-T

Which products will be affected?

Product Name	Current Version	New Version
ICF-1180I-S-ST	v2.0.1	v2.0.3
ICF-1180I-S-ST-T	v2.0.1	v2.0.3
ICF-1280I-S-ST	v2.1.1	v2.1.3
ICF-1280I-S-ST-T	v2.1.1	v2.1.3

When will the new versions be available?

Product Name	New Version	Available for Order
ICF-1180I-S-ST	v2.0.3	June 30, 2024
ICF-1180I-S-ST-T	v2.0.3	June 30, 2024
ICF-1280I-S-ST	v2.1.3	June 30, 2024
ICF-1280I-S-ST-T	v2.1.3	June 30, 2024

Note:

The new and old versions are identical in specifications, but because of differences in material characteristics between the two versions, it is recommended to use them in pairs as much as possible. If mixed use is necessary, it is known that in specific optical power conditions, the old version may have difficulty communicating with the new version at distances typically less than 20 meters. In such cases, it is advised to add a 3dB attenuator to the new version's Fiber Tx, which should fix this problem. If issues persist with mixed usage, please contact Moxa customer service for help.

The effective schedule of this transition may be changed based on stock availability. Please contact Product Manager for the most up-to-date schedule. If you have any questions, please contact [Sean Chou](#) at seansh.chou@moxa.com, or contact your regional sales representative.
