

## Product Change Notification—PCN# 001052

September 3, 2024

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to the OnCell G4302-LTE4 Series. With the design change and optimization, we want to enhance the application of the OnCell G4302-LTE4 Series in vehicles and hazardous environments. We will implement these changes depending on the consumption of the existing inventory, which may result in varying timelines. Please review the details below to determine how these changes will affect your products and/or operations.

### What will change?

These changes will not affect any existing functionalities, but the new hardware will support additional features and certifications. The version number will be printed on the side label of the product.

The new version will include the following enhancements:

- Power management will support an ignition feature, which can sense the vehicle's ignition or off state through a digital input signal, further enabling the device to enter or exit power-saving mode.
- Support for E1 Mark certification.
- Support for IECEx, ATEX, and C1D2 certifications.

### Which products will be affected?

Product Name	Current Version	New Version
OnCell G4302-LTE4-AU	1.0.0	1.1.0
OnCell G4302-LTE4-AU-T	1.0.0	1.1.0
OnCell G4302-LTE4-EU	1.0.0	1.1.0
OnCell G4302-LTE4-EU-T	1.0.0	1.1.0
OnCell G4302-LTE4-US	1.0.0	1.1.0
OnCell G4302-LTE4-US-T	1.0.0	1.1.0
OnCell G4302-LTE4-JP	1.0.0	1.1.0
OnCell G4302-LTE4-JP-T	1.0.0	1.1.0

### When will the new versions be available?

The new versions will be supplied as soon as the stock of V1.0.0 has been depleted.

If you have any questions, please email Yin Chang at [YinY.Chang@moxa.com](mailto:YinY.Chang@moxa.com), or contact your regional sales representative.
