

Product Change Notification—PCN# **PCN000989**

May 27, 2025

Dear Valued Customer,

We would like to inform you that Moxa is going to make changes to the MPC-2101 Series. These changes will be implemented by June 02, 2025. Please review the details below to determine how these changes will affect your products and/or operations.

What will change?

Changes will be made to the LED Driver IC in the panel of the MPC-2101 Series. The original Driver IC has reached the end of life and will be replaced with a new IC from the same manufacturer, with the same design and specifications. The panel functionality and display performance remain the same.

Which products will be affected?
